COMPRESSORS & ENGINES

We at IAL are an Authorized Distributor for Cooper Machinery Services in the Caribbean region. With decades of experience in industrial Equipment and Machine Services, IAL brings a strong reputation for reliability, technical expertise, and customer service.

As an authorized partner, we provide:

- Genuine Cooper Machinery parts and equipment
- Certified maintenance and repair services
- Expert technical support and consultation
- Improved local availability and faster response times

COMPRESSION SERVICES

In today's fast-paced industries, efficiency, reliability, and performance are non-negotiable. Our compression services are designed to help you optimize operations, reduce downtime, and extend the life of your equipment—delivering measurable value where it matters most.

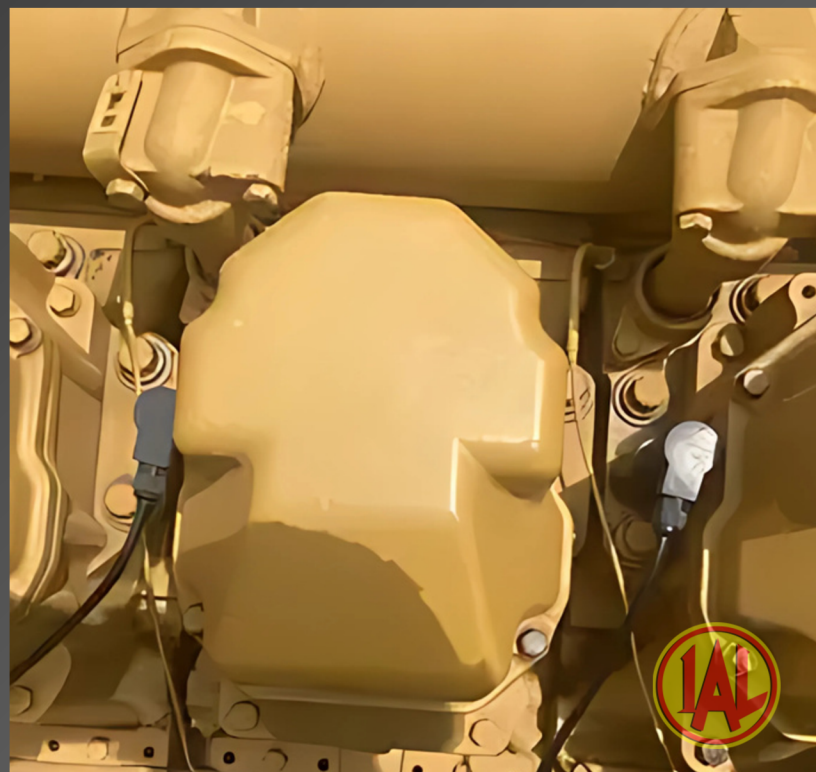

Our Core Services are:

- Gas Compression Management
- Valve Maintenance & Repair
- Condition Monitoring
- Pressure Testing
- Quality Assurance & Control
- Safety & Certification
- OEM Parts & Repairs

RESONANCE SYSTEMS

Our Resonance Systems delivers cutting-edge solutions for machinery health monitoring and analysis. The technology provides real-time data insights, customizable alerts, and seamless cloud integration, empowering industries to maximize performance, reduce downtime, and make smarter maintenance decisions.

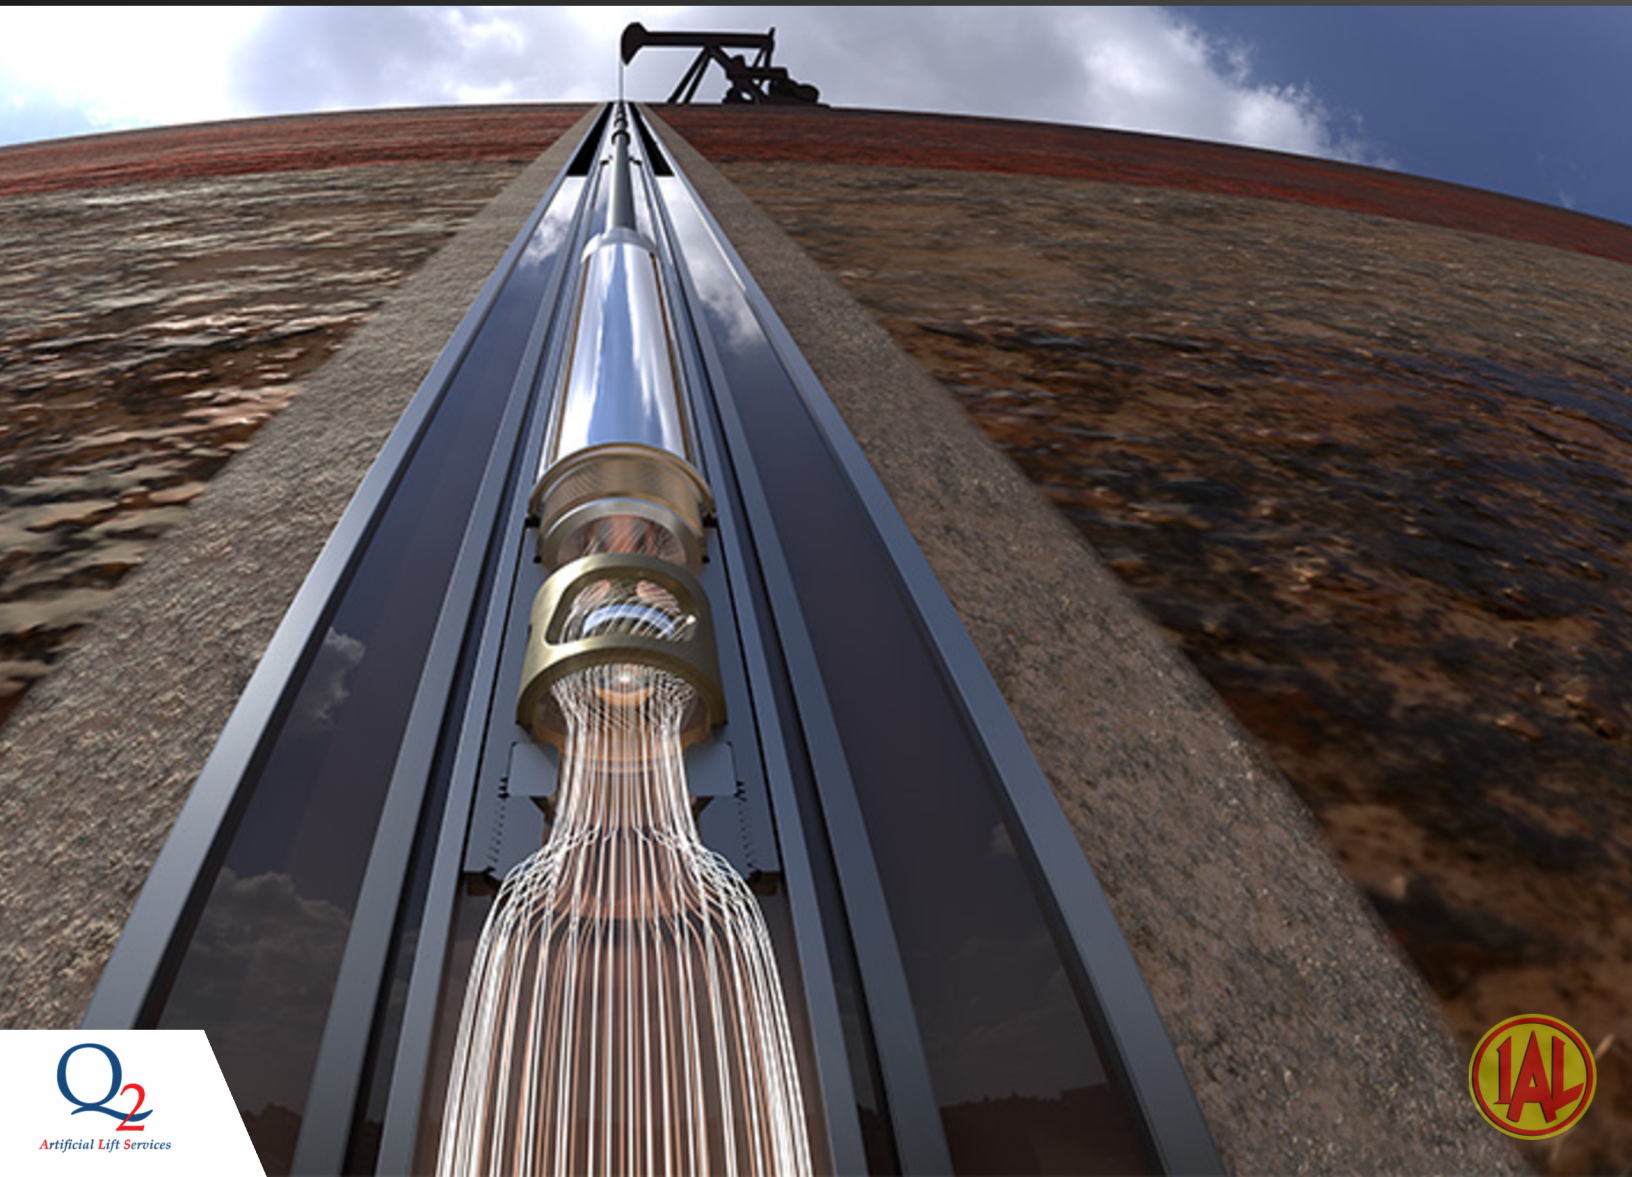

ARTIFICIAL LIFT & PUMP SYSTEMS

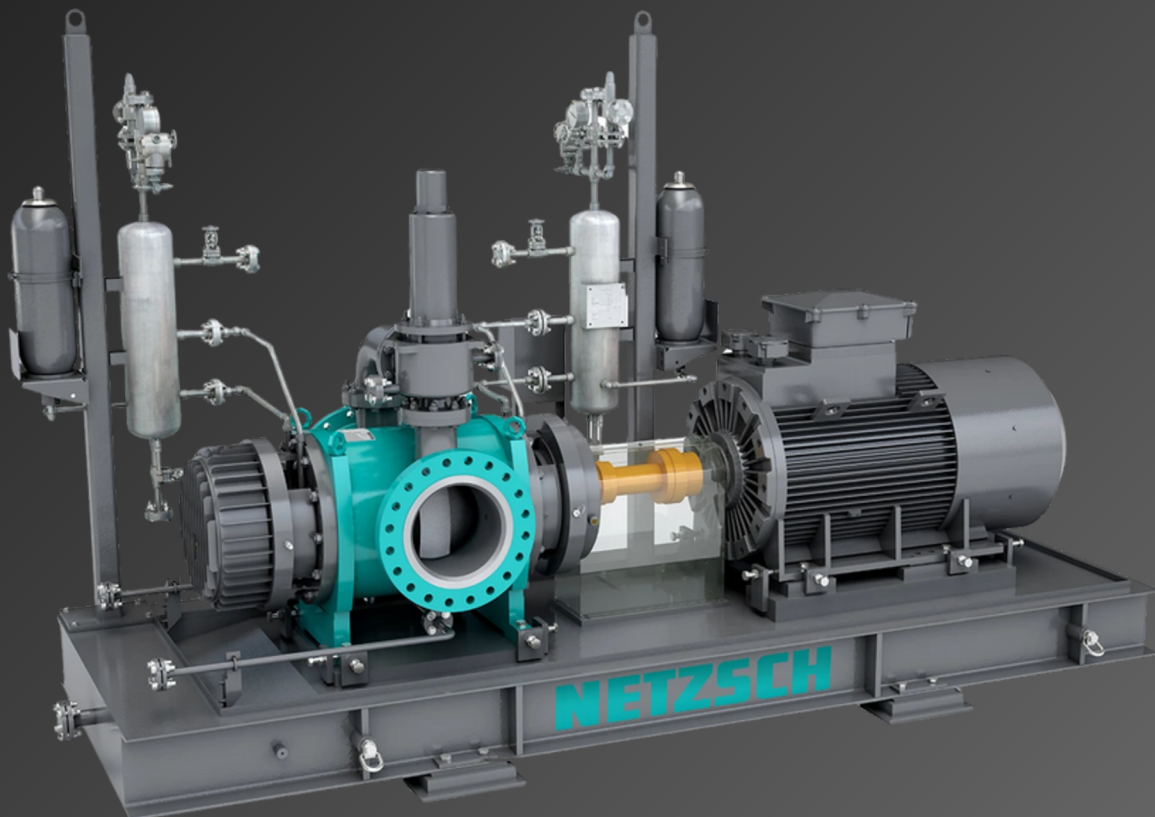

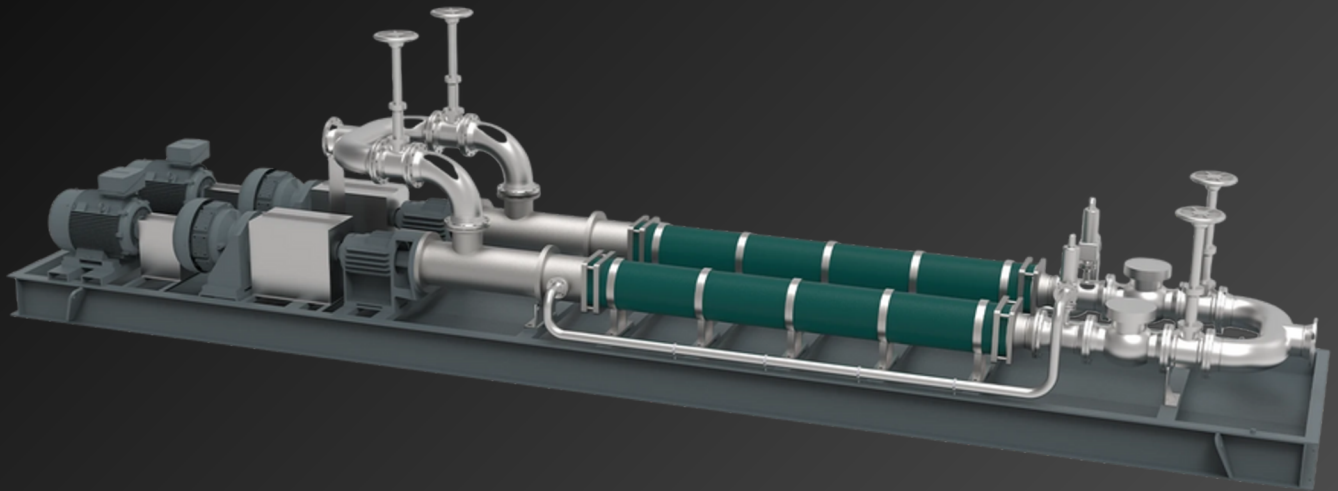

Recognized as an Authorized Dealer for Q2 Artificial Lift Services and NETZSCH Pumps Systems two globally respected leaders in artificial lift & pump technology, our company is proud to deliver advanced solutions tailored to the evolving needs of the oil, gas, and industrial sectors. This collaboration allows us to deliver:

- High-performance Progressive Cavity Pump (PCP) Systems
- Reliable Rod Pumping Solutions
- Advanced Driveheads, Automation & Monitoring
- Custom-engineered lift systems for complex environments

With Q2's innovation and NETZSCH's precision engineering, we deliver efficient, durable, and cost-effective solutions tailored to your production needs.

NETZSCH PUMP SYSTEMS

VALVES

Through strategic partnerships with Baker Hughes, OMB Valves, Neway and Fluicon we provide access to a full suite of reliable, high-quality valve solutions for critical applications across the energy, industrial, and infrastructure sectors.

Our Valve Portfolio Includes:

- Gate, Globe & Check Valves
- Ball Valves
- Butterfly Valves
- Control & Safety Valves
- Severe Service & Cryogenic Applications

With the engineering excellence of Baker Hughes, the Italian craftsmanship of OMB, and the global reliability of Neway, we deliver certified, durable, and high-performance valve solutions tailored to your operational needs.
